Personal Tech Vietnam

243 Phan Đăng Lưu, Đà Nẵng

Date: November 26, 2024

Dear Hiring Manager,

I am Nguyễn Thị Tố Nga, currently a second-year student at Passerelles Numériques Vietnam (PNV), majoring in software development. I am writing to express my interest in the Front-End Developer Internship position at Personal Tech Vietnam, which I saw advertised.

Throughout my studies at PNV, I have had the opportunity to learn and develop skills related to web development, particularly in HTML, CSS, JavaScript, and frameworks such as ReactJS. In addition, I have participated in several individual and group projects, where I took on the role of team leader, leading and assigning tasks to team members. I was responsible for designing the user interface (UI) and developing key website features, such as search functionality, payment systems, and order management. Furthermore, I actively participated in coding and optimizing performance to ensure smooth functionality across multiple devices.

I am excited about the opportunity to intern at Personal Tech Vietnam because I believe the company will be an ideal environment for me to apply the knowledge I have gained and further develop my skills in a real-world setting.

I believe I am well-suited for this position due to my passion for technology and strong teamwork skills. Throughout my time at PNV, I have had the chance to work on various projects, which have helped me improve my problem-solving skills, work under pressure, and communicate and collaborate effectively with team members. Additionally, I have focused on developing my time management and self-learning abilities, enabling me to complete tasks on time and continuously improve myself. With my enthusiasm and drive for growth, I am confident that I can contribute positively to the projects at Personal Tech Vietnam.

I would be delighted to have the opportunity to discuss how I can contribute to your company. Thank you very much for considering my application.

Sincerely,

Tố Nga
